Aircraft Crash- No injuries

Prineville, Oregon

On June 26, 2011 at about 1413 hours, Prineville Dispatch received two 911 calls after a single engine experimental plane landed at the Prineville Airport without landing gear. Once the plane landed, Police, Fire & medical personnel arrived on scene. It was determined that the pilot was not injured.

Upon further investigation, it was determined that the planes landing gear did not come down which caused the plane to run off the runway after it landed. The Federal Aviation Administration was contacted, and has taken over the investigation.

Estimated loss to the plane is yet to be determined.

Eric Bush

Chief of Police
