I am expressing interest in being a member of the City Budget Committee. The following is a brief history of my experience and personal background.

I graduated in 2001 from Crook County High School. My main interests were drafting, design, and music. From 2001-2003 I attended Central Oregon Community College. I studied mostly drafting and design. I also took business and accounting courses.

I started working at Robberson Ford of Prineville as a Service Technician in 2003. My duties consisted of scheduled maintenance, minor service repair, customer relations, billing, and invoicing. In 2005 I took a position at Navigational Construction in Redmond, Oregon. I started as a designer. Duties included graphic design, plotting, manufacturing, order tracking, and invoicing. When I left Navigational I had been promoted to Asst. Project Manager. I had control of inventory, time keeping, production, scheduling, billing, and invoicing. I now work at Robberson Ford of Prineville as a Service Advisor and have been working there since March 2007. I schedule work for the service department, advise customers of needed repairs or service, calculate quotes, oversee the progress of repairs in order to keep customers informed, invoice, and arrange pickups when work is complete.

In my work experience I have acquired many different skills. Some of the skills that will be beneficial on the budget committee are my organizational, relations, and mathematical abilities, my strongest area being mathematical.

Aside from work I am also involved in my church. I have attended Prineville Community Church since 1996. I now volunteer as a youth leader on Tuesday nights and am also very involved in the music ministry.

On a personal level I am very excited to be more involved with the city. I have lived in Prineville for about 20 years and would love to see it prosper. I sincerely hope that I can be a positive addition.
