

7th Street /Laughlin Water Line Project

The City of Prineville in conjunction with SMAF Construction will be installing a new mainline with new services in front of your residences starting May 10th. The street will be closed for all traffic during the day from Oregon St. to Juniper St., its suggested if you need to leave that you park your vehicle outside the work zone during the day, access will be restored in the afternoon for the night. Your water will remain in service until the end of the project when we switch you over to the new line, at that time there will be a minimal interruption, approximately 15 minutes or less. Thank you for your patience and we apologize for any inconvenience. Any questions or concerns can be directed to myself or Lead Water personnel Jerry (Honk) McBeth, phone numbers are below.

Thank You,
Pat Goehring
Public Works Superintendent
